#### **(D) Provision For Current And Deferred Tax**

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income-tax Act, 1961. Deferred tax resulting from "timing difference" between book and taxable profit is accounted for using the tax rates and laws that have been enacted or substantively enacted as on the balance sheet date. The deferred tax asset is recognized and carried forward only to the extent that there is a virtual certainty that the assets will be realized in future.

#### **(E) Provision, Contingent Liabilities And Contingent Assets**

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. A contingent liability is disclosed, unless the possibility of an outflow of resources embodying the economic benefit is remote. Contingent assets are neither recognized nor disclosed in the financial statements.
