INDEPENDENT AUDITOR'S REPORT

To the Shareholders of OASIS HOLDING (FZC)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **OASIS HOLDING (FZC)** (the "Company"), which comprise the statement of financial position as at 31 March 2025, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of material accounting policy information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2025, and of its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates (UAE), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB, and for their compliance with the Implementation Procedures issued by the Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

continued...

INDEPENDENT AUDITOR'S REPORT

(continued)

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, design and perform audit procedures responsive to those risks, and obtain
 audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
 not detecting a material misstatement resulting from fraud is higher than for one resulting
 from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations,
 or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

continued...

INDEPENDENT AUDITOR'S REPORT

(continued)

• Conclude on the appropriateness of management's use of the going concern basis of

accounting and, based on the audit evidence obtained, whether a material uncertainty exists

related to events or conditions that may cast significant doubt on the Company's ability to

continue as a going concern. If we conclude that a material uncertainty exists, we are required

to draw attention in our auditor's report to the related disclosures in the financial statements

or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the

audit evidence obtained up to the date of our auditor's report. However, future events or

conditions may cause the Company to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including

the disclosures, and whether the financial statements represent the underlying transactions

and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the

planned scope and timing of the audit and significant audit findings, including any significant

deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We further confirm that the financial statements comply with the applicable provisions of

Implementation Procedures issued by the Sharjah Airport International Free Zone Authority

pursuant to Law No. 2 of 1995.

1. REPORTING ENTITY

- a) OASIS HOLDING (FZC) (the "Company") is a limited liability company registered in Sharjah Airport International Free Zone, Sharjah, UAE as a Free Zone Company, in accordance with the provision of implementation procedures issued by the Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995. The registered address is PO Box 121943, Executive Suite, Sharjah, United Arab Emirates. The Company was registered on 18 June 2008.
- b) The Company operates under license no. 06338 issued by Sharjah Airport International Free Zone Authority and is engaged in the activity of investment of own financial resources.
- c) The parent company is Belle Terre Realty Limited, Mauritius and the ultimate parent company is Jai Corp. Limited, India.

2. BASIS OF PREPARATION

a) Statement of compliance

The financial statements are prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB) and which are effective for accounting periods beginning 1 April 2024, and the requirements of the Implementation Procedures issued by the Sharjah Airport International Free Zone Authority pursuant to Law No. 2 of 1995.

b) Basis of measurement

The financial statements are prepared using historical cost. Historical cost is based on the fair value of the consideration given to acquire the asset or cash or cash equivalents expected to be paid to satisfy the liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

c) Going concern

The financial statements are prepared on a going concern basis.

When preparing the financial statements, management makes an assessment of a Company's ability to continue as a going concern. Financial statements are prepared on a going concern basis unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

d) Adoption of new International Financial Reporting Standards

Standards, amendments, improvements and interpretations effective for the current period. The following amendments, improvements and interpretations which became effective for current period, did not have any significant impact on the Company's financial statements:

- Amendments to IAS 7 and IFRS 7 Supplier Finance Arrangement
- Amendments to IAS 1 Presentation of Financial Statements relating to Classification of Liabilities as Current or Non-Current
- Amendments to IAS 1 Non-current Liabilities with Covenants
- Amendments to IFRS 16 Lease Liability in a Sale and Leaseback
- IFRS S1 General Requirements for Disclosure of Sustainability Related Financial Information and IFRS S2 Climate Related Disclosures

New and revised IFRSs in issue but not yet effective and not early adopted

The following standards, amendments, improvements and interpretations that are assessed by management as likely to have an impact on the financial statements, have been issued by the IASB prior to the date the financial statements were authorised for issue, but have not been applied in these financial statements as their effective dates of adoption are for future accounting periods.

- Amendments to IAS 21 Lack of Exchangeability (1 January 2025)
- Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor
 and its Associate or Joint Venture. The amendments address the conflict between IFRS
 10 and IAS 28 in dealing with the loss of control of a subsidiary that is sold to an
 associate or a joint venture (The IASB postponed the effective date of this amendment
 indefinitely Early adoption is permitted)
- Amendments to the SASB (Sustainability Accounting Standards Board) standards to enhance their international applicability (1 January 2025)
- Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 Financial Instruments and IFRS 7) (1 January 2026)
- Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7) (1 January 2026)
- IFRS 18 Presentation and Disclosures in Financial Statements (1 January 2027)
- IFRS 19 Subsidiaries without Public Accountability: Disclosures (1 January 2027)

e) Functional and presentation currency

The financial statements are presented in UAE Dirhams ("AED") which is also the Company's functional currency.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

3. MATERIAL ACCOUNTING POLICIES

The material accounting policies adopted, and which have been consistently applied, are as follows:

a) Investment property

Leasehold rights and building acquired for the purposes of earning rental income and for capital appreciation are classified as investment properties and stated at cost less accumulated depreciation and impairment losses. The cost less estimated residual value, where material, is depreciated using the straight-line method over the expected useful lives of the properties as follows:

Leasehold rights 41 years
Building 20 years

An assessment of depreciation method, useful lives and residual values is undertaken at each reporting date and, where material, if there is a change in estimate, an appropriate adjustment is made to the depreciation charge.

b) Staff benefits

The Company provides staff end-of-service benefits to its non-UAE national employees as per the applicable local laws. The entitlement to these benefits is based on the employees' last drawn salary and length of services which is accrued over the period of employment. Provision for staff end of services benefits are disclosed as non-current liability.

c) Revenue recognition

The Company is engaged in the activity of investment of own financial resources.

d) Leases

As a lessee

The Company leases land. Rental contracts are typically made for fixed period of 41 years but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease arrangements do not impose any covenants, however leased assets may not be used as security for borrowing purposes.

Right-of-use assets

The Company recognises right-of-use assets at the date the underlying asset is available for use. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any reimbursement of lease liabilities. The cost of right-of-use assets includes:

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial costs; and
- restoration costs.

Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

As a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

e) Cash and cash equivalents

Cash and cash equivalents comprise cash and bank current accounts.

f) Foreign currency transactions

Transactions in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling on the date of the transactions.

Monetary assets and liabilities expressed in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling at the reporting date.

Gains or losses resulting from foreign currency transactions are taken to profit or loss.

g) Provisions

General

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably.

h) Contingencies

Contingent liabilities are not recognised in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognised in the financial statements but disclosed when an inflow of economic benefits is probable.

i) Value added tax

As per the Federal Decree-Law No. (08) of 2017, Value Added Tax (VAT), needs to be charged at 5% standard rate or 0% (as the case may be) on every taxable supply and deemed supply made by the taxable person. The Company does not have any output taxable supplies of goods or services. As VAT register is not mandatory in UAE for such an entity, the Company has opted not to register under VAT.

j) Income and deferred tax

Tax expense for the year comprises of current tax and deferred tax. Current tax is measured by the amount of tax expected to be paid to the taxation authorities on the taxable profits after considering tax allowances and exemptions and using applicable tax rates and laws. Deferred tax is recognised on temporary differences between the accounting base and the tax base for the year and quantified using the tax rates and tax laws enacted or substantively enacted as on the balance sheet date.

Deferred tax is recognised using the balance sheet approach. Deferred tax assets and liabilities are recognised for non-deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in the financial statements, except when the deferred tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred tax asset is recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred tax liabilities are recognised for all taxable temporary differences.

Current tax and deferred tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amount and there is an intention to settle the asset and liability on a net basis.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

k) Current versus non-current classification

The Company presents assets and liabilities in the statement of financial position based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realised within twelve months after the reporting period. or,
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period. or,
- There is no right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

I) Financial instruments

Classification

On initial recognition, a financial asset is classified as measured at amortised cost; debt investment at fair value through other comprehensive income, equity investment at fair value through other comprehensive income; or fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial assets' contractual cash flow characteristics and the Company's business model for managing them.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are 'solely payments of principal and interest' on the principal amount outstanding. This assessment is performed at an instrumental level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cashflows, selling the financial assets, or both.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

Financial liabilities are classified as financial liabilities at fair value through profit or loss or at amortised cost. The Company determines the classification of its financial liabilities at initial recognition.

Recognition

Financial assets and financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the instrument. Regular purchases and sales of financial assets are recognised on trade-date, the date on which the Company commits to purchase or sell the asset.

Derecognition

Financial assets are de-recognised when, and only when,

- The contractual rights to receive cash flows expire or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
 - (a) the Company has transferred substantially all the risks and rewards of the asset, or
 - (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities are de-recognised when, and only when, they are extinguished i.e. when obligation specified in the contract is discharged, cancelled or expired.

Measurement

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition. Transactions costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

The following accounting policies apply to the subsequent measurement of financial assets and liabilities.

Financial assets

Financial assets at amortised cost

Financial assets that meet the following conditions are subsequently measured at amortised cost less impairment loss and deferred income, if any (except for those assets that are designated as at fair value through other comprehensive income on initial recognition) using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

- 1. the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- 2. the contractual terms of the instrument give rise to cash flows on specified dates that are solely payments of principal and profit on the principal amount outstanding.

All other financial assets are subsequently measured at fair value.

Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

The financial assets at amortised cost comprise of other receivables and cash and cash equivalents.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities at amortised cost

Financial liabilities at amortised cost comprise of accruals and other payables and advances from shareholders for projects.

Impairment of financial assets

The Company recognises an allowance for expected credit losses for all debt instruments not held at fair value through profit or loss. Expected credit losses are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Loss allowances are measured on either of the following basis:

- 12-month expected credit losses: expected credit losses that result from possible default events within 12 months after the reporting date; and
- Lifetime expected credit losses: expected credit losses that result from all possible default events over the expected life of a financial instrument.

The Company measures the loss allowance at an amount equal to lifetime expected credit losses, except for the following which are measured as 12-month expected credit losses:

 Bank balances and other receivables for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportive information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Company considers a financial asset to be in default when:

- The tenant is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- The financial asset is more than 360 days past due.

The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial assets have occurred.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the asset.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Equity

Share capital is recorded at the value of proceeds received towards interest in share capital of the Company.

m) Fair value measurement

The Company discloses the fair value of financial instruments measured at amortised cost.

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their best economic interests.

n) Events after the reporting period

If the Company receives information after the reporting period, but prior to the date of authorisation for issue of the financial statements, about conditions that existed at the end of the reporting period, it assesses whether the information affects the amounts that it recognises in its financial statements. The Company adjusts the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Company does not change the amounts recognised in its financial statements, but discloses the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

4. JUDGMENTS EMPLOYED IN APPLYING ACCOUNTING POLICIES

Following are the judgments made in applying accounting policies, that affect the application of the Company's accounting policies and the amounts recognised in the financial statements:

Investment property

Properties acquired on a leasehold basis are classified as investment property if they would otherwise fall within the definition of an investment property.

Classification of financial assets

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them.

Impairment

At each reporting date, management conducts an assessment of investment property to determine whether there are any indications that they may be impaired. In the absence of such indications, no further action is taken. If such indications do exist, an analysis of each asset is undertaken to determine its net recoverable amount and, if this is below its carrying amount, a provision is made.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

The Company applies expected credit loss model to measure loss allowance in case of financial assets on the basis of 12-month expected credit losses or Lifetime expected credit losses depending on credit risk characteristics and how changes in economic factors affect expected credit losses, which are determined on a probability-weighted basis.

Leases

Determining the lease term

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has the option, under its leases to lease the assets for additional years. The Company applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. The Company considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

Following are the key assumptions made concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis and are consistent with the Company's risk management. Revisions to estimates are recognised prospectively.

Impairment

Assessments of net recoverable amounts of investment property are based on assumptions regarding future cash flows expected to be received from the related assets.

Impairment of financial assets

The loss allowance for financial assets are based on assumptions about the risk of default and expected loss rates. The management uses judgement in making these assumptions and selecting the inputs to the impairment calculations based on the past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in Note 3(m).

Income tax

Significant judgments are involved in determining the provision for income tax, including the amount expected to be paid or recovered in connection with uncertain tax positions.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

Deferred tax

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry forwards become deductible. The Company considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realisable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Staff end-of-service benefits

The Company computes the provision for the liability to staff end-of-service benefits stated at AED 4,753 (previous year AED 3,507), assuming that all employees were to leave as of the reporting date. The management is of the opinion that no significant difference would have arisen had the liability been calculated on an actuarial basis as salary inflation and discount rates are likely to have approximately equal and opposite effects.

6. **INVESTMENT PROPERTIES**

	Leasehold rights ^(a)	Building ^(b & c)	Total
Cost	AED	AED	AED
At 1 April 2023, 31 March 2024 and			
31 March 2025	31,564,950	17,565,561	49,130,511

13. RELATED PARTIES

The Company enters into transactions with entities that fall within the definition of a related party as contained in International Accounting Standard 24. The management considers such transactions to be in the normal course of business and are at prices determined by the management.

Related parties comprise the parent company, the ultimate parent company, companies under common ownership and/or common management control and shareholders.

At the reporting date, related party balances comprise of advances from shareholders for projects were AED 1,746,032 (previous year AED 35,711,972).

Advances from shareholders for projects are unsecured, interest free and are expected to be settled in cash. Repayment and other terms are set out in notes 12 and 20.

There were no significant transactions during the year with the related parties (previous year Nil).

The Company avails certain administrative services from a related party free of cost.

FOR THE YEAR ENDED 31 MARCH 2025

20. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments

Classification and fair values

The net carrying amounts as at the reporting date of financial assets and financial liabilities are as follows:

	At amortised cost	
	2025	2024
	AED	AED
Financial assets		
Other receivables	234,525	234,525
Cash and cash equivalents	253,709	408,985
	488,234	643,510
Financial liabilities		
Advances from shareholders for projects	1,746,032	35,711,972
Accruals and other payables	262,400	262,550
	2,008,432	35,974,522

Fair value measurement and disclosures

The management assesses the fair values of all its financial assets and financial liabilities at each reporting date.

The fair values of cash and cash equivalents, other receivables, accruals and other payables and advances from shareholders for projects approximate their carrying amounts largely due to the short-term maturities of these instruments.

Financial risk management

Risk management objectives

Risk is inherent in the Company's activities but is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability. The Company's risk management focusses on actively securing short to medium term cash flows by minimizing the exposure to financial markets.

The Company does not actively engage in trading of financial assets for speculative purpose.

The primary risks to which the business is exposed which are unchanged from the previous year, comprise credit risks, liquidity risks and market risks (including currency risks, cash flow interest rate risks and fair value interest rate risks).

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

The management of the Company reviews and agrees policies for managing each of these risks which are summarised below:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Credit risk is managed by assessing the creditworthiness of potential customers and the potential for exposure to the market in which they operate, combined with regular monitoring and follow-up.

Financial assets that potentially expose the Company to concentrations of credit risk comprise principally bank accounts and other receivables.

The Company's bank accounts are placed with high credit quality financial institutions.

There are no trade receivables at the reporting date (previous year AED Nil).

Liquidity risk

Liquidity risk is the risk that the Company may encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and financial liabilities.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company manages liquidity risk by monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Company's undiscounted financial liabilities at the reporting date, comprising of accruals and other payables of AED 262,400 (previous year AED 262,550) and advances from shareholders for projects of AED 1,746,032 (previous year AED 35,711,972) which are due for settlement in less than one year, based on contractual payment dates and current market interest rates.

Market risk

Market risk is the risk that the changes in market prices, such as foreign currency exchange rates, interest rates and prices, will affect the Company's income or the value of its holdings of financial instrument. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the returns.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2025

Currency risk

Currency risk is the risk that the values of financial instruments will fluctuate because of changes in foreign exchange rates.

There are no significant currency risks as substantially all financial assets and financial liabilities are denominated in UAE Dirham or US Dollar to which the Dirham is fixed.

Interest rate risk

Interest rate risk is the risk that the value of financial instruments will fluctuate because of changes in market interest rates.

As at the reporting date the Company is not exposed to any significant interest rate risk.

21. **INCOME TAX EXPENSE**

On 9 December 2022, the UAE Ministry of Finance released the Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (the 'CT Law') to enact a Federal corporate tax ('CT') regime in the UAE. The CT Law is effective for the financial years beginning on or after 1 June 2023. Decision No. 116 of 2022 specifies the threshold of income (as AED 375,000) over which a corporate tax of 9% would apply and accordingly, the CT Law is now considered to be substantively enacted.

As the Company's accounting year begins on 1 April, the first tax period will be the period from 1 April 2024 to 31 March 2025, with the tax return to be filed on or before 31 December 2025. UAE CT law specifies that a tax rate of 9% will apply to taxable income exceeding AED 375,000 and a rate of 0% will apply to taxable income not exceeding AED 375,000.

The current tax expense for the year ended 31 March 2025 is Nil as the taxable income for the year is Nil. Further, management has assessed that there is no deferred tax benefit or asset which requires recognition in the financial statements for the year ended 31 March 2025.
